

# Building teacher community, collaboration, and creativity

Promethean is a leading education technology company working to transform the way the world learns and collaborates. Our Professional Development Team is dedicated to helping educators develop technology skills that lead to creativity, collaboration, and breakthroughs.

Promethean's team of Education Consultants—all with more than five years of in-classroom teaching experience—provide on-demand courses and annual professional development training events open to all educators at no cost.

**88,372**  
educators trained in 2021

**93,553**  
touchpoints with educators in 2021

**26,000+**  
session registrations across all  
of our annual events

**100+**  
sessions offered in 2021 across all our  
annual events

Take a look at our 2022 Professional Development Series, where educators can learn new skills, discuss trending topics, and collaborate with community peers.

May 3rd

The Promethean Teacher Appreciation Summit brings together teachers from across the nation to share ideas on ways to integrate Promethean hardware and software into daily instruction. There will also be plenty of fun, games, and prizes.

July 14th

Camp Promethean is an all-day event of virtual professional development for teachers across the United States. Led by our Education Consultants, sessions are designed to help teachers best utilize Promethean tools in the classroom. Courses will cover ActivInspire, ClassFlow, Classroom Essential Apps, and more.

August 18th

Our Tech and Admin Summit is designed to help administrators and IT personnel utilize Promethean solutions in all learning environments. Our professional development team will provide you with the latest sustainable approaches and ideas to support going back to school.

September 7th

Teacher Tailgate is a back-to-school event to help teachers learn how to access resources from Learn Promethean and the Resource Library. It includes a live demonstration on how to make interactive activities with the Whiteboard app and ActivInspire.

November 8th

STEAM Forward is an online conference that brings together innovative thinkers to discuss the latest trends in edtech. It includes virtual sessions on hybrid and remote teaching, technology integration, STEAM best practices, hands-on STEAM applications, and more.
