

Unified Learning System

Our award-winning system of learning tools is purpose-built for K-12 and trusted by school leaders to promote **effective teaching** and **equitable engagement**, while helping empower educators to **keep students safe**.

Investing in the **Unified Learning System** means equipping your school or district with proven solutions to support classroom management, assessment and instruction, and safety and security.

With the **Unified Learning System**, schools can:

- Identify learning gaps and accelerate academic progress
- Encourage and measure student engagement
- Create safer learning environments
- Streamline device, user, and app management

GoGuardian Beacon® 24/7

Identify online activity that indicates a risk of suicide, self-harm, or possible harm to others with our flexible and robust student safety solution.
