edlio

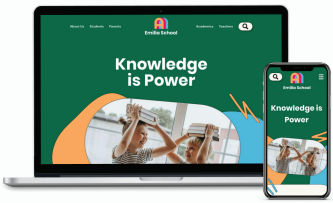
Own your school's online presence with a feature-rich website CMS.

School Websites

Made for Schools

From small schools to large districts, educators nationwide use Edlio to connect with their students, families, and communities. Our content management system (CMS) combines all the systems you're already using onto one easy-to-use platform.

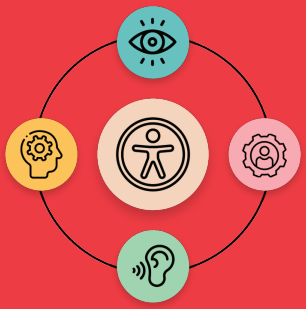


Dynamic Design

From templated to tailored, Edlio offers several options that are unique to your school and your budget.

Accessibility Awareness

Everything is built with accessibility in mind. Our team of digital accessibility experts will make sure that all visitors can engage with your content, no matter how they interact with your website. We give you tools to help you maintain WCAG 2.1 compliance.



All the Tools You Need

FORMS WITH PAYMENTS

Collect forms, payments, and donations on your site.

GOOGLE & OFFICE 365

Hassle-free with Add to Cart buttons.

TEACHER PAGES

Subscribe for daily class updates.

WIDGETS

Add a call-to-action on your homepage.

OSP by edlio

Online School Payments

Simplify how you manage school payments online and in person.

More Accountability, Less Work

A secure accounting system designed to help K-12 school districts accept, track, and analyze all school-related fees.

STRONG SECURITY BY DESIGN

When it comes to online payments, nothing matters more than security. We keep payments secure through tokenization, encryption, and PCI compliance.

TRANSPARENCY WITH EVERY CLICK

Making sure all funds are accounted for starts with transparency. With OSP, you can easily track and analyze all cash, check, and card payments - no matter who collects the money.

Easily manage your school activity funds with OSP by Edlio!

Designed to fit the needs of everyone in your district.

OSP by Edlio offers features that are powerful for district accountants, convenient for families, and easy-to-use for school staff without accounting experience.

ONLINE TEACHER RECEIPTING

Provide school staff with an easy way to process and log all in-person payments.

ONLINE SCHOOL STORE

Allow parents to pay for school products, activities, and obligations online.

ONLINE TICKET MANAGEMENT

Sell and track tickets and other school products that require redemption.

ONLINE MOBILE SWIPE

Accept in-person credit and debit card payments using any mobile device.

ONLINE SCHOOL CARE

Manage enrollment and payment for before and after school child care.

ONLINE SCHOOL REGISTRATION

Offer students the option of registrering and paying for classes online.

EPES PARTNERSHIP

OSP by Edlio has partnered with EPES to offer a seamless integration between the EPES Web Accounting Software and your OSP solution.

edlio BROADCAST

Send parent alerts across platforms in multiple languages.

School to Family Messaging

Send Instantly, Everywhere

Whether there's an urgent alert to get out or you're juggling multiple tasks, sending a message needs to be easy. Messages are created in just three steps:

1

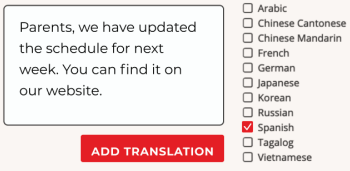
SELECT YOUR CHANNEL(S)

Choose email, text, voice, or all three.

2

COMPOSE YOUR MESSAGE

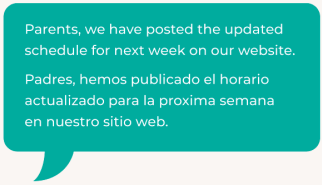
Automatically translate into multiple languages.



3

CHOOSE YOUR RECIPIENTS

Lists are created using SIS data or uploaded manually.



Easily integrate with Edlio's CMS!

By adding Edlio Broadcast, you get your website and direct communication in one unified platform.

- Turn your website's News items into messages with one click
- Access your teacher and class page subscriber lists
- Build contact lists with the Form Homepage Widget

Communication isn't about technology, it's about people.

Edlio Broadcast makes it simple to send messages across multiple platforms so you can focus on reaching the hearts and minds of your audience. You can also set up auto notices to deliver attendance alerts on the schedule you set.

Built-in Features

Edlio Broadcast has the features schools need to make staying connected easy.

SIS INTEGRATION
Import your SIS data or opt for the API Integration add-on (Aeries, Skyward, and PowerSchool API supported)

REPORTS AND OPT OUT HANDLING
Check delivery status for each contact and allow recipients to opt out on each channel

CONTACT LIST MANAGEMENT
Create and save lists to message, synced with SIS or uploaded manually

AUTOMATED TRANSLATION
Select up to 3 languages for each channel

VOICE MESSAGE OPTIONS
Record your voice message or use the text-to-speech option

SCHEDULING
Plan ahead and select a date and time to send

New! Auto Notices

Set up automated notifications based on data—perfect for:

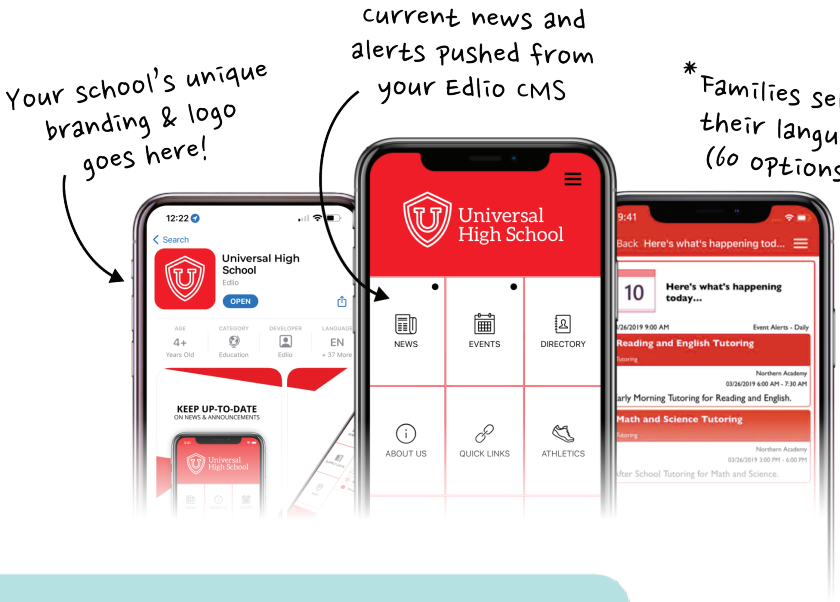
- Daily attendance notifications (absent or tardy students)
- Alerts for Library fines or other school fees
- Monthly payment reminders for private schools

edlio BROADCAST

Branded MOBILE APP by edlio

ALL NEW!

Free to download, easy to navigate, quick to engage.



Features at a Glance

Increase student and family engagement with a mobile-first communication strategy.

- [x] Uniquely Branded
- [x] Free to Download
- [x] Translatable Content (over 60 languages!)
- [x] Unlimited Notifications

How it Works

1. Your school's branded app goes live

Once your app is complete, it will go live in both The App Store and The Google Play Store.

2. Curate your app's content

Your community downloads the app to their mobile devices, and administrators use the Edlio CMS to publish news, events, quick links, and more.

3. Connect with your community

Educators can easily and quickly connect with students, families, and staff through the app.

Today, finally, is the long-awaited push for equity in schools—all kinds of equity. Schools are adapting to the ever-changing needs of students and their families, and an app is one of the final pieces for creating digital equity among communication with families.

- Reach who you need where they are: on their mobile devices
- Give families one central location to access important information
- Consolidate messaging and oversight of school communication
- Represent your school's community with your unique branding

Why edlio?

Dedicated Client Success Specialist

Your CSS is a dedicated Edlio liaison for your school who will...

- Understand your goals
- Guide you through site updates
- Send you the latest product updates
- Share upcoming webinars you might like

Guided Onboarding

We've refined our implementation process over the years to launch websites, messaging tools, apps, and online stores easily and quickly. No matter which product you choose, our team will guide you every step of the way, from initiation to launch.

All Edlio products also come with training to get your staff on board and your new online solution optimized.

About Edlio

Edlio is a technology company that unifies, simplifies, and streamlines school communication for their students, families, and community.

With over 20 years exclusively in the K-12 arena, Edlio created a digital platform to combine all of the systems schools are using into one place (website, mobile app, parent communication, online school payments, forms, emails, etc), and made it easy for all educators to use.

"To say Edlio has been a good investment is an understatement: it has been essential to our goal of offering educators and schools the best tools on the Web, at an attractive cost. Go Edlio!"

MARK DENNIS
Community & Media Relations Coordinator
Lake Elsinore USD, CA

"Edlio makes it extremely easy to have a great looking web presence and provides a centralized platform to communicate with our students, parents, and community."

KEVIN GHOST
Director of Technology
Connellsville Area School District, PA
