

**TEACH A GIRL TO CODE AND
SHE'LL CHANGE THE WORLD.
START A GIRLS WHO
CODE CLUB AND YOU'LL
UNDERSTAND WHY.**

WE ARE GIRLS WHO CODE; WE ARE A MOVEMENT

We are an international nonprofit working to close the gender gap in technology. We've sparked culture change through our campaigns and advocacy efforts, generating **14 billion** engagements globally. Half of the **500,000** students we've reached through our programming and educational content are from historically underrepresented groups in tech. We have **115,000** college-aged or post-college-aged alumni — over **3X** the number of women graduating with CS and related degrees in the U.S. in 2019.

START A CLUB, NO CODING EXPERIENCE REQUIRED

Our Clubs are **free programs for 3rd-5th and 6th-12th graders** to learn computer science and join a growing sisterhood of girls, female-identifying, and non-binary students using tech to change the world.

When you sign up to start an in-person or virtual Club, you'll gain access to the following — **all for FREE**.
Plus, no coding experience is needed!

-  **Online Training & Ongoing Support**
-  **Flexible Meeting Guides**
-  **120+ Hours of Plug & Play, Project-Based Curriculum**
-  **Opportunities to Earn T-Shirts and Other Swag for Your Club**
-  **Exclusive Virtual Events**

CLUBS STUDENTS HAVE BUILT TECH TO...

FIGHT CLIMATE CHANGE

COMBAT BULLYING

THE MAGIC BEHIND GIRLS WHO CODE CLUBS AND HOW TO INSPIRE YOUR COMMUNITY

Girls Who Code changed my life. I found a new interest that eventually became a plan for a college major, and a new confidence in my ability to accomplish things because I want to, not because they are already easy.

- Andrea, Girls Who Code alumna

OUR PHILOSOPHY: CODING, SISTERHOOD, BRAVERY

Our Clubs are about more than just coding. They're also about sisterhood and creating a culture of bravery where students feel supported and encouraged to take risks and learn new skills.

OUR CLUBS: FLEXIBLE, ENGAGING, CUSTOMIZABLE

Our flexible curriculum features sisterhood activities, lessons about women in tech, and self-guided coding tutorials for all skill levels in Scratch, Python, HTML/CSS, JavaScript, p5.js, and Swift!

A typical Club generally meets 1-2 hours for 10-15+ sessions during the year, but you'll have the flexibility to customize a schedule that works for you — whether you're meeting virtually or in person.

We have Clubs as small as 3 members and as big as 30+!

AM I READY TO START A CLUB?

☐

I have the space to host the Club at a school, library, university, or other nonprofit. Or, I can host virtually.

☐

I have access to computers, Chromebooks, or iPads with internet access.

☐

I am 18 years old or older and can pass a background check. No computer science experience is needed!
